

Experienced/Skilled CNC Programmer / Operator MAZAK required

Location - Stockport

Who are Maple Fleet Services?

We are a company who design, manufacture and install safety and security applications for the logistics industry. Founded in 1974 by Jim Maple, a passion for engineering and design has been the cornerstone of our organisation, leading to a series of pioneering developments and product innovations that have become our company's hallmark. We embrace new and emerging technologies and our product range has continued to evolve, keeping pace with the demands of the logistics industry.

Who we are looking for?

We are seeking a skilled **CNC** programmer/operator to work in our newly established machine shop machining safety and security products on our MAZAK machining centre and lathe. We are looking for driven individuals with a strong eye for detail and determination to succeed. We would like it if you have a particular interest in Mechanical Engineering, working with machine tools and electro-mechanical products.

Brief Job Description:

- CNC Programming, Setting and Operating MAZAK vertical machining centre and lathes.
- Using inspection equipment to ensure component quality.
- Machining production and proto-type components in small to medium batch quantities.
- Working with aluminium, stainless and polymers.

Skill Requirements:

- Proficient in programming, setting and operating MAZAK 3+1 axis machining centres and two axis lathes.
- Strong knowledge of tooling, speeds and feeds, fixturing and modern manufacturing.
- Ability to interpret engineering drawings and/or 3D CAD models.

Advantageous but not essential skills:

- Apprenticeship trained and/or equivalent qualification
- Experience of programming in G-Code
- Experience with Prototrak Conversational Controls
- Experience with SolidWorks and/or other 3D modelling packages
- Experience with Autodesk CAM software (FeatureCAM, HSM, Fusion360 etc) and/or other packages

What we can offer you?

- Competitive salary - £26,000 - £32,000 depending on experience
- 38.75 hours per week (plus overtime when required)
- Clean, modern machine shop with a range of the very latest machinery and tools
- The chance to gain immense experience and knowledge with our forward thinking company
- Training where required to strengthen employee skills and knowledge

An exciting opportunity to join an a newly established machine shop, operating MAZAK machining centre and lathe. The position would suit an individual with a particular interest in Mechanical Engineering, working with machine tools and electro-mechanical products.
